

## Counter Copier

*Good assistant to counter operations*

### *Capture and print out the image by one click*

DocExpress can be the counter copier for receptionists. No need to line up at copier with others for making the copy of ID photo, application forms...etc. Captured images will be sent to copier and print out the images directly. In addition, the captured images can be stored at the PC for document management.

### *Instant Service and Time saving*

Customers do not have to wait while receptionists making the copy at the remote Copier. It greatly improves the working performance for receptionists and can provide non-stop better services to customers at counter operation.

### *Face Camera application*

DocExpress can be used as Face Camera for taking customer's face images for records. No need to buy another face camera. DocExpress is the document cameras and face camera.

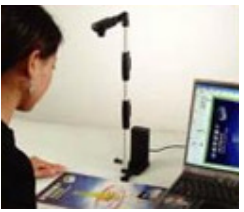

### *Easy Integration*

DocExpress provides TWAIN driver for easier and more convenient integration with MS Office Software (Word) and Image Software like Photoshop, PhotoImpact, ACDSee...etc.

### *Application*

Counters at Bank, Post Office, Securities Company, Insurance Company, Telecom Office, Tax Office...etc.

### *DocExpress Multi-Functions*
